

## GREASE METER

### DESCRIPTION:

It is difficult to grease a bearing with the right amount of grease with a grease gun. Most bearings are often given either too much or too little grease causing a shortening of bearing life and often results in costly breakdowns and stoppages. Trico's Grease Meter measures the amount of grease dispensed from the grease gun to the equipment bearing. A simple push of a button will set the meter to zero and the metering can be started. The amount of grease dispensed is displayed on a digital screen and can be expressed in cubic centimetres, grams, ounce, or fluid ounces. With Trico's Grease Meter is possible to grease exactly to bearing manufacturer's recommendations. This will increase the life of the bearing and reduce the number of stoppages.

### FEATURES:

- Digital screen displays grease dispensed in cubic centimetres, grams, ounces, or fluid ounces.
- Grease meter can be mounted to any grease gun.
- Grease meter is equipped with a light for working in dark environments.
- Grease meter can be calibrated.

### SPECIFICATIONS:

Housing Material	Anodized Aluminium
Seals	Buna-N
Working Pressure	10,000 PSI (68900 kPa)
Flow	Max 1000 cubic centimetres per min
Grease Type	Grease up to NLGI 2
