

## ONSITE LUBRICATION SERVICES

Precise Lubrication offers lubrication services to suit your company's needs ranging from:

- Collection of oil samples for analysis.
- Basic lubrication of plant.
- Oil changes and basic flushing.
- Filter element changing or upgrades to existing or inadequate filtration.
- Rationalisation of inventory.
- Maintenance of lube rooms.
- Customised asset or equipment labelling.
- Full lubrication management.

With increasing demand for downsizing of work forces and rationalising of personnel, the plant lubrication responsibilities are pushed aside with long term catastrophic effects on productivity/reliability and the bottom line of your business. These services can be provided on a fee for service basis, hourly rate or annual rate.

Precise Lubrication currently provides oil and greasing services for some of South Australia's largest household names. Our fee for service offer allows these companies to have world's best practice lubrication services at a fraction of the cost of a full time, skilled, lubrication specialist.
